

# EARTHQUAKE COURSES FOR ENGINEERS, ARCHITECTS AND BUILDING INSPECTORS

Sponsored by

**Illinois Emergency Management Agency \* Illinois Capital Development Board  
Federal Emergency Management Agency**

## FEMA—P-154: Rapid Visual Screening of Buildings for Potential Seismic Hazards

June 9, 2015  
8:00 am — 3:00 pm

Learn how to identify potentially hazardous buildings before earthquakes occur. This course covers methods and processes to rapidly identify, inventory and screen local buildings according to their expected safety and usability during and after earthquakes.

## ATC—20 CalSAP: Post Earthquake Safety Evaluation of Buildings

June 10, 2015  
8:00 am — 4:30 pm

Learn how to conduct safety evaluations of buildings following earthquake incidents. This course includes the California Safety Assessment Program (CalSAP). The training teaches how to evaluate building damage conditions, assess overall risk from the damage, and recommend which placard should be posted on the building.

### Location for Both Courses

Illinois State University  
Nelson Smith Building  
Room 202  
718 W. College Avenue  
Normal, Illinois

- Licensed professionals who complete the ATC—20 CalSAP course will receive an ID Badge from CalSAP. Photos will be taken in the classroom by the instructor.
- All other attendees will receive a certificate of attendance from CalSAP.
- All attendees needing an ID Badge or Certificate of Completion must complete the CalSAP Registration Form, available at the end of the course.

### Architects :

Earn AIA/CES Learning units  
ATC-20: 6 HSW LUs  
FEMA-P-154: 4.5 HSW LUs  
IEMA will report hours to AIA

### Engineers:

Earn Professional Development Hours  
Engineers must self-report

### Registration Information:

- These courses are being offered FREE of charge.
- Participant space is limited and openings are on a first come, first serve basis.
